Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Use Gemini in Google Sheets - the side panel, actions and formula help - to summarise, quality-check and prepare HR data, and to generate, explain and fix formulas such as VLOOKUP, COUNTIF and nested IF.
- LO2: Create colour-coded tables, trackers and dropdowns, extract and categorise text with the AI function, and generate data analysis, insights, pivot tables and charts with Gemini, verifying every result.
- LO3: Build an interactive hiring dashboard, automate repeat screening with a custom Gem, and use Gemini's optimisation solver, reporting and sharing features responsibly.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.
